It is stated that the Louisville & Nashville will probably triple track that part of its line between Corbin and Livingston in view of increase in traffic, says a Barbourville dispatch. A second track is now being put in, and it is believed two tracks will be inadequate. The line from Norton to Louisville and that from Atlanta to Cincinnati converge at Corbin and separate at Livingston. The Pine Mountain railroad, the L. & N.'s proposed extension from Four Mile to Williamsburg, has been placed in hands of the contractors, and it is understood that work will commence at once.

Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years from rheumatism," says W. H. Howard of Husband, Pennsylvania. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all druggists.

The Czar's chief cook receives salary of \$50,000 a year and is an important personage in Russia. He has the rank of General and control of all the imperial kitchens in the empire. He probably doesn't know how to make a caviare sandwich.

The election of officers for the Hustonville Commercial Club Thursday evening resulted as follows: Chas. Wheeler, president; Dr. Edward Alcorn, vice president; Dr. J. C. Barker, treasurer; W. R. Williams, secretary. Executive committee—Rev. G. W. Mills, Prof. R. S. Eubank, V. B. Morse, Emmett McCormack and Judge Wm. Myers. The next meeting will be Thursday night at Alcorn's opera house at 7:30. The first objects of our club are progression and development, which will be of interest to every inhabitant of our city as well as to every farmer of the community. Upon the list of wants of our locality, on a thorough investigation by interested parties, gives special advantages and inducements for the location of a woolen mill, pants and overall factory, tobacco factory and extract works, slack barrel and stave factory and excelsior machine in connection.

A poultry slaughtering house for next season, State Normal school, water works, spoke and handle factory, oiled streets, railroad and a company to drill for lithia water, an abundance of which can be reached here at a depth of about 1,300 feet, the securing of which alone would give us a renowned resort, second to none in the Central Western States. We are geographically situated contiguous to all the timbers that could be used for many years in the making of hickory spokes and slack barrel stave factory. With sawturnpikes leading from our city and penetrating forests studded with heavy timber that would be delivered here at a reasonable price, and nothing but the finished goods shipped and our close proximity to the largest markets are features quite sufficient to induce a large plant to locate here. Our locality produces the best quality of wood in large quantities. This fact is evidenced by buyers from the largest Eastern plants ordering their agents to pay more for clips here than elsewhere. With labor plentiful and cheap, the superiority of the output would readily create a demand beyond the supply of even a large plant. Woolen mills have passed beyond the experimental stage in Kentucky and Tennessee and since the successful work of gasoline engines a much less capital is necessary to the equipment as well as a much larger dividend to the stockholder. More minute details regarding any of the factories mentioned above will be gladly given by addressing the secretary of the Hustonville Commercial Club.

They are easy to take and always give satisfaction. I tell my customers to try them and if not satisfactory to come back and get their money, but have never had a complaint." E. C. WALTON.

JESSE M. ALVERSON has introduced a bill in the General Assembly, taking Casey county from the Eleventh District and incorporating it in the Eighth. He hopes thus to further his Congressional aspirations. It is not thought however that this bill will pass, as it will be difficult to show anyone who is not interested, that it is good policy to take a Republican county from a surely Republican district, and put it in a district that although counted Democratic, has gone Republican.—Richmond Register. Wrong as usual. Mr. Alverson's object is to help his friend, Senator Hubble, fulfill a promise he made to the good democrats of Casey county. Lincoln's representative in the Lower House is not mercenary, as the sore editor of the Register would have his readers believe. Looks like Editor Pickles will never get over Mr. Miller's defeat for Speaker.

THE reason Marshal Field, the Chicago merchant prince, is receiving so many encomiums is that he made his millions by ordinary trade and judicious investment. He was no speculator. He made no attempts to suppress competition. He built up an immense retail and wholesale dry goods trade. In his early years he had associates, but the vast expansion of his business in the last 25 years was made under his sole direction. He was a man of the highest character and eminently public-spirited. Chicago has lost one of its greatest citizens and New York has lost one of its most extensive real estate owners.

WILLIAM VAN DALSEN, who was hung in Louisville Friday for the murder of Fannie Porter, his mistress, confessed to a Times reporter that he had murdered a man named Murphy and had also attempted to kill his sweetheart, having snapped his pistol five times in her face. Fortunately for the girl it was a centre-fire pistol and was loaded with rim-fire cartridges. Gov. Beckham made no mistake in not interfering with the jury's verdict. Van Dalsen deserved hanging and it is a pity he did not get his deserts before he met his last victim.

GOV. BECKHAM sent to the Senate for confirmation yesterday the names of the following Boyle county gentlemen to serve as commissioners of the Deaf and Dumb Institute at Danville: Messrs. A. S. Robertson, R. G. Evans, H. G. Sandifer and C. H. McDowell. Admirable selections, all of them.

AN observer says that a woman never loses interest in the man she might have married. If he succeeds she prides herself on the fact that she could have had him. If he fails she is equally proud of the fact that she had foresight enough to turn him down.

It is suggested that "He paid his taxes," be inscribed on the tombstone of Marshall Field, because he is probably the only rich man who ever gave his property to the Assessor at anywhere its real worth.

POLITICAL.

The pardon tax bill was defeated in the House.

It is stated that Gen. Funston will shortly be ordered to the Philippines. Thomas Y. Fitzpatrick, former Congressman from the 10th district, died at Frankfort.

Luke E. Wright, Governor-General of the Philippines, has been named by the President as the first American Ambassador to Japan.

Capt. W. W. Bradshaw, one of Columbia's most enterprising and public spirited citizens, has been chosen mayor of that little city.

Gov. Folk, of Missouri, delivered an address before the Boston, Mass., Merchants' Association on the subject of a general reform in politics.

In the Senate Mr. Tillman offered his resolution for an investigation of the Morris incident at the White House. The resolution was laid on the table by a decisive vote.

In an exciting three-cornered municipal election at Knoxville, former Mayor S. G. Heiskell probably was elected Mayor by a narrow margin. He ran on an Independent-Labor ticket.

President John Mitchell, of the United Mine Workers, declared at Indianapolis that there is no political office in the United States for which he would resign the leadership of the miners.

Senator Newman, of Woodford, is the author of a bill providing for raising the fee to be paid the State for a Notary Public commission from \$2 to \$5. If adopted this measure will raise \$10,000 in revenue.

Mr. Young, of Bath county, has offered a joint resolution for the appointment of a committee of three from the House and of a like number from the Senate to go to Breathitt county to settle the feud question. One excellent method would be to give a banquet to the leaders on both sides at which toadstools are served as mushrooms.—Louisville Times.

To The Tax-Payers of Lincoln Co.

Section 4325. Persons damaging road by unusual use to repair—penalty. Any corporation, company or individual, who may, by unusual use of a road materially damage the same, shall repair all damages caused by the use of said road or roads. The Supervisor or Overseer of Roads shall at any time when necessary, notify said corporations, companies or individuals of their duty as provided in this section; and should the said parties so notified, fail in a reasonable length of time to be filed in the notice to make such repairs, such parties shall be deemed guilty of obstructing the public roads and shall be subject to a fine of not exceeding one hundred dollars to be applied to road purposes.

This section is a part of the general road law of Kentucky. The Act has been in force since March 10, 1894. The Fiscal Court of Lincoln county is charged with the duty of maintaining all the public roads in Lincoln county. The pikes are maintained exclusively by taxation, the dirt roads by hands allotted to them and taxation.

By an order of the Fiscal Court the Supervisor was directed to notify all persons, corporation, companies and individuals who by an unusual use had damaged the turnpike roads leading from Lincoln and Casey line to Moreland station and from the same point to McKinney to repair all damages caused by the unusual use of said roads by the 1st day of February next. All damage that has accrued to these roads by the unusual use of said roads within one year before the 1st day of February, 1906, will be the subject of inquiry and proof upon the trial of any person or corporation or individual. The law embraces all roads, dirt as well as McAdamized roads, it matters not which. By unusual use materially damaging the same is deemed under the statutes to be obstruction of said roads which is nuisance. In common law to be guilty of creating a nuisance the person so guilty was liable to a fine in any amount in the discretion of the jury.

R. C. WARREN,
Judge Lincoln Court.

Miss Irene McLaurin, daughter of United States Senator McLaurin, of Mississippi, narrowly escaped being burned to death in a fire which destroyed the home of State Superintendent of Education Whitefield, at Jackson.

A Modern Miracle.

"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn., "she was so wasted by coughing up puss from her lungs. Doctors declared her end so near that her family had watched by her bed-side 48 hours; when, at my urgent request Dr. King's New Discovery was given her, with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman to-day." PROFITABLE PERSISTENCY.

"The thing that impressed me most in your sermon," said the not over intelligent parishioner to his inquisitive pastor, "was the way you went over the same thing again and again. Such perseverance I never did see in any man before or since."

THE Courier-Journal of Saturday says that Mr. J. P. Goode will lecture there on the subject: "Our Largest Cereal Crop, Corn." For fear some of our Lincoln county friends might go down and meet with sore disappointment, we will state that Mr. Goode is a citizen of Chicago and not the up-to-date mayor of Hustonville.

POSTMASTER FLORENCE has been appointed to succeed himself as postmaster of Stanford. Mr. Florence is a popular official and has made an excellent postmaster for the capital of Lincoln. His friends in Boyle will be glad to learn of his re-appointment. - Advocate.

In conversation with Col. W. Huff Dudderar Saturday he told us he had seen three or four milder winters than the present. No ice was harvested during any of them—none being thick enough to gather. He thinks we will have very little cold weather during the part of this winter yet to come. "This is poor man's winter," said he, "and I like it fine."

FIRE.—Mr. H. C. Ruple's residence on East Main Street caught fire from the kitchen flue Sunday and the fire company was quickly on the scene. Neighbors had smothered the flames, however, and water was not turned on. The damage is very small. Had the fire gained a little more headway it would have been almost impossible to have saved the building, as a hard wind was blowing.

HORRIBLE.—While their mother was doing some housework for Mr. B. W. Givens, near Hubble, a cabin close to Mr. Givens' house burned and a 34-year-old colored girl perished in the flames. Her brother, two years her junior, was also badly burned. They are children of Matilda Penman and she had left them in the house during her absence. It is not known how the fire originated and a good deal of the interior of the cabin had burned before it was discovered. Deputy Sheriff George T. Wood saved the little boy's life by risking his own and was considerably scorched.

We intended to keep the following joke on Judge Warren a profound secret, but as the Danville News let the cat out of the wallet, we will give it further publicity: "A good joke is being told on the Hon. R. C. Warren, county judge of Lincoln. During the trial of a case, and when a witness who was being questioned was asked something which the judge evidently thought was in violation to the rules of practice, forgetting, and while on the bench, Judge Warren immediately exclaimed, 'I object,' and had begun to explain his grounds for objection, when Mr. J. B. Paxton, who was representing the defendant, broke in with 'I sustain the objection.' A ripple of laughter immediately went over the court room, and it was several minutes before sufficient quiet reigned to go on with the case. The judge and his friends have had many a good laugh about the incident."

If you take the Courier-Journal clip the coupon out and leave it with us. These gentlemen have cast the following number of votes for Miss Bailey: J. Harry Moore, 1,000; Dr. Tom Price, 1,000; Chas. A. Hardin, 1,000; J. M. Board, 1,000; B. W. Allin, 1,000; Ben Vivion, 120; E. J. Thisler, 400; Lee Smock, 700; Virgil Chatham, 700. Miss Bailey's vote now foots up about 25,000. - Harrodsburg Herald.

STANFORD Rural Route No. 3 is ordered by the postoffice department to be discontinued after Feb. 14. Routes 1 and 2 will run tri-weekly beginning Feb. 15. No. 1 runs Mondays, Wednesdays and Fridays; No. 2, Tuesdays, Thursdays and Saturdays. This action is taken on account of the small quantity of mail collected and delivered by the carriers on these routes. Friday's INTERIOR JOURNAL for Route No. 1 will get started out the following Monday. The patrons along these routes should get together and influence their neighbors to get a mail box, thereby increasing the number of patrons in order to have a fighting show to have the service restored. Similar routes in neighboring counties have 90 to 115 mail boxes on routes which will no doubt be sufficient to retain the full service. The number of patrons owning mail boxes on Routes 1, 2 and 3 only run up to from 43 to 45.

GIVENS.—That death, clothed in its darkest mantle, loves a shining mark, was never more distressingly proven than when on last Friday morning after a short illness of pneumonia the spirit of Mrs. Bessie Engleman Givens, wife of Mr. Bowen W. Givens, soared away to that higher and better world where death and sorrow are unknown. Mrs. Givens was 41 years of age and since early girlhood had been a devout member of the Christian church. In 1889 she was married to the man who is now bereft of a gentle and faithful wife. Their union was blessed with five children, the oldest 16 and the youngest scarcely two years of age, and they with others of her family are utterly crushed at the irreparable loss they have sustained. A Christian in all the word implies, the natural tenderness and loveliness of her character were made more manifest to those who knew her intimately and at once caused true admiration on the part of those who were mere acquaintances. Chief among Mrs. Givens' ambitions in life, and which bespoke a most admirable character, was a desire to make her home one of attractiveness and joy for her husband and children, and the other that she might live to see her offspring grow to full man and womanhood still filled with the consciousness of an Almighty Providence, in whom she had so carefully taught them to trust. In the one her fondest hopes were realized; in the other it can not be that the seed which she has sown will be for naught. On Saturday afternoon at the Hubble Christian church, where she had long been a worker, Rev. Tinder, of Lancaster, conducted the funeral services, after which the remains were brought to Buffalo cemetery and amid a concourse of sorrowing friends consigned to its resting place, there to await the hour that shall mark the end of time separating the dutiful wife and mother from the ones she loved so well. May the God of all mercies look with compassion upon the husband and motherless children and may they find comfort in the blessed assurance that she is now reaping that reward given unto all who live and die in His infinite love and mercy.

DAVID, three-year-old son of Sam Ballard, of the Preachersville section, wandered from home Sunday afternoon and his parents began a search for him. Neighbors joined in and 50 or more people were scouring the neighborhood in a short time. After dark the little fellow was found some three miles from home, tired and hungry and crying lustily.

In remitting for his old home paper to Sept. 1905, Mr. W. W. Lyon, formerly of the West End, but now a thriving citizen of Augusta, Kansas, writes: "Two years ago to-day we landed in Augusta and so far we have been as prosperous as we could expect. We miss our Kentucky friends but hope before a great while to visit them. We have bought a lot and improved it and have a very comfortable home in the thrifty little town of about 1,500 inhabitants, with natural gas, etc. If you ever come West we will expect you to visit us. Remember us to all of our friends, and especially to Dr. J. B. Owsley."

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in. This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way. Two sizes, 25c and 75c. All druggists. For Sale at Penny's Drug Store.

ESTRAYS.—A yearling steer weight about 550 or 600 lbs, hole cut through left ear. Steer was bought from a drover near Stanford. Will pay for knowledge of its whereabouts. Hugh Thompson, Chilton, Ky.

Eighteen Dignity Dare colts have sold for an average of \$550 per head at an average of less than three-years-old. This great show horse is owned by D. S. Carpenter, of Hustonville. T. L. Carpenter sold 12 head of his noted Polled Angus cattle to Lutes at prices running from 3 to 3½c. The bunch averaged 1230 pounds.—Danville News.

FOR SALE.—A nice large store room and dwelling above, consisting of several nicely furnished rooms. A good barn and lot and all necessary outbuildings. The property is in good repair, situated on Main street in Stanford, Ky., right in the business portion of town. The property will be sold at a bargain and is a splendid opportunity for some one desiring to go in business, for the store and dwelling combined will be a great saving in rent, etc. Possession given immediately. For particulars, etc., see or write L. R. Hughes, Stanford.

CHURCH MATTERS.

Near Panola, in Estill county, recently Rev. D. G. Combs, of the Christian church, held a series of ten days meeting resulting in 100 additions to the church. Eight by baptism, four from the Baptist church, eight from other sources, others reclaimed.

Eld. Joseph Ballou preached a most excellent sermon at the Christian church Sunday morning in celebration of his 70th birthday. His topic was "God's Revelation to the Human Family," and he handled it with much force and clearness. Eld. Ballou was pastor of the Christian church for four years and much good resulted from his labors as such. He occasionally preaches now and whenever, he does a good crowd hears him. The house was well filled Sunday morning. This grand old man has been a member of the church for 47 years, joining when he lived in Pulaski county. He has preached almost that long. He served in the union army from 1861 to 1864 and preached to his fellow soldiers when the occasion would admit. We join his many friends and admirers in hoping that he will be spared for many years to come, that he may keep up his fight for the betterment of mankind.

Chamberlain's Cough Remedy the Best Made.

"In my opinion Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker, of Porterville, California. There is no doubt about it being the best. No other will cure a cold so quickly. No other is so sure a preventive of pneumonia. No other is so pleasant and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used this remedy. For sale by all druggists.

Last year nearly \$20,000 worth of gold dust was scraped from the 19 chimneys of the United States mint at Philadelphia during the annual cleaning. During the year \$49,000 worth of gold and silver dust was swept from the mint floors and \$4,680 was recovered by burning the clothes of the workmen.

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well-known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me \$1,000 worth of good." Penny's Drug Store.

Twelve men are in the jail at Pineville, charged with murder.

The Hindoo, who has the steadiest nerves in the world, and who is accustomed to concentration, and who can go through feats of endurance that would daunt any other man of any other race, has his own way of resting his nerves. He does it economically and claims that he gets good results. When worn out, so tired that he can hardly stand, the Hindoo will drag himself to the window and rest upon his feet. He will open his arms wide and breathe deeply. This is his way of resting his lungs and his stomach. He will remain by the window taking in deep breaths of pure air; mean-while he will say his prayers. The two together, the deep breathing and the prayers, restore him. He turns from the window rested in mind and in body. His nerves are light and free again.

Half The World Wonders

how the other half lives. Those who use Bucklen's Arnica Salve never wonder if it will cure Cuts, Wounds, Burns, Sores and all Skin eruptions; they know it will. Mrs. Grant Shy, 1130 E.
